UPSC

Candidates must not write on this margin

MAP 2026 → Test 914217 → Ethics sectional

Q1) a) The emerging technologies is not machines that might overthink us, but we might forget how to truly think.

Ans: The emerging Artificial Intelligence and machine learning technologies excells at cognitive and thinking paradigms which are the unique faculties of human amongst all species on earth, unlike other technologies that disrupted world via various industrial revolutions.

Justifying the view

1) we humans tend to always converge into efficient ways to do things as such innately try to outsource thinking to machines whenever capabilities are available and accessible. which poses great risk to ~~thinking capabilities~~ brain plasticity

Ex:- claude being used to bomb Iran with a single minded goal of ravaging it

2) No accountability and reason d'atre of a particular course of action of design

Ex: Internal chatgpt version hacking hugging face servers

3) shallow context and lack of data attention as model have a bottleneck

(Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

on these fronts

3) Lacks the deep, reflective and humane reasoning as it is just next token prediction as such biases and prejudices amplify. → leads to superficial learning and loss of deep reflective learning

5) to Machines lacks creativity to solve different problems as such they produce "one-size fits all" kinda solutions that poses risk to original thought erosion.

6) Reward mechanism in the attention-span crisis times tends towards instantaneous previously good answers as opposed to slow original thinking of humans

Ex:- system design by AI/LLMs over humans

Against the view:-

1) Lacks consciousness, feelings and emotions that are innate to humans and their originality in thinking

Ex:- whole AI-sentient debate

Next-token prediction ≠ critical thinking

2) Human judgement and reviewers enhancing the (or) aligning the model to specific tasks than allowing them to run autonomously

Ex:- HITL model of inferencing

3) Ethical and value driven responses to and actions to real world problems as

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

opposed to narrow specific tasks at hand.

(E2)- Ethical dilemma resolution in case of conflicts of interest needs ethical context of situation

4) lacks ability to think adaptively and critically as it discovers new information and evidences of the world as such it is bottlenecked by knowledge cut-offs and situational processing.

(E2) Heuristical reasoning scientific-humane questioning of them.

Thus, the emerging technologies has evolved so to give the doubts of critical thinking and original thoughts becoming obsolete whilst these higher faculties are equally unique to humans at the moment so we need to shun intelligence complacency and cognitive laziness.

(Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

b) "Ethics in public life grounded in ethics in private life". Examples

Ans

Ethics in public life refers to administ values (or) morals like objectivity, honesty, integrity, probity, accountability etc.,) while ethics in private life refers to values such as loyalty, care, love etc., which nurture the basic faculties of human like and personal while former qualities deals with society and gorernance at large in the conduct of public administrators

Ethics in public life flows from personal life

1) character consistency and smooth conte -xtual switch from private to public life.

Nurturing Morals →

Ex: Financial honesty and punctuality

2) Removes cognitive dissonace and conflicting thoughts in dealing public duties

3) Development of conscience and moral courage to deal with ethical dilemma. in certain situations

4) Reinforces the faith of public in probity of public administrator based on the personal ethics

Ex: paying taxes and following traffic rules sets a role model

5) private life acts as a laboratory to test various ethical situations

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

that can flow into public life

6) Unified framework of moral thinking helps in consistency of values and principles so as to pass any close public scrutiny

Ex:- C.V Raman using different candles for public and private works

counter views

pragmatic governance →

1) Seperation of influence of private life push and pulls to act transparently and objectively in public life

2) Ex:- Transparency in awarding public contracts

2) prone to bias and prejudice as Public Life deals with diverse people from diverse situations as opposed to narrow interactions in private life

Ex:- Religious person dealing with a secular demanding situations

3) Differring implications and scale of impact in public roles which can be large scale socio-economic-cultural dimensions as opposed to private interactions.

As such administrators need to critically think and understand the influence of private life on public life in order to uphold the ethical values and morals.

(Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

Q2) a) How does religion contributes to the dev of moral values? Does faith makes a believer more ethical than a non-believer?

Ans Religion provides an ethical rulebook for individual to base their actions and nurture personal values that can directly influence the course of actions.

How religion contributes to moral values

1) Development of conscience by - teaching universal values of love, compassion, courage, empathy etc, ~~as a form of state~~

Ex:- concept of Dharma

2) Fear of punishment and ~~shame~~ tragedy for wrongful (or) morally wrong deeds

Ex:- concept of karma keeping

3) Nurtures moral virtues by forming an embodied ideal higher being and teaching that all should strive towards to that

Ex:- Krishna avataras with different teachings ~~values~~ at various interpretations

4) Religion provides a socially persuading and ethically acceptable behaviour that is met with reward while the otherwise is ~~not~~ discouraged with disapproval

Ex:- Buddhist ~~sangh~~ monk group traditions.

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

Faith makes a believer more ethical but ethicality is not their exclusive forte as discussed below:-

1) A non believer can directly find appeasement to universal moral principles thus enrich their values rationally as opposed to indulging in religious, textual and literary interpretation of the same

2) A non believer can think independently and rationally logically coherent manner to act ethically and think morally as opposed to social, scriptural and spiritual conformity found of a believer

3) A non believer can sought to scientific temper and think from all dimension as he is uncluttered by the conditioning of a religion which can sometimes leads to bias, sectarian and extreme forms in case of sensitive situations and ethical dilemmas.

In toto we can conclude that religion provide an ethical framework for individuals to act morally as yet it is not automatically flow of exclusive forte for expected ethical behaviour for a public administration role

(Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

b) "Ethics is not just a philosophical concept but a vital foundation for social cohesion and the creation of just society", Explain

Ans :- As remarked by APJ Abdul Kalam, "An ethical man creates a just family and a just man creates a just family and a just community, and a just community creates a just society, a just society creates a just country and a just country creates a just world that everyone can live peacefully and happily", Ethics forms the bed rock of a just world.

How ethics contributes to social & human well being:-

1) upholds and nurtures the universal values of love, empathy, honesty, integrity etc, which forms the core societal values violation of which leads to disapproval and discord.

2) society is a collection of individuals who expects a certain reciprocity and expectation that their ethical behaviour met with equally acceptable consistent behaviour which ethics guarantees. that improves social cohesion

3) According to platonic view of, in both dyadic for every human being

ease do not
te anything
xcept the
question
number in
his space)

UPSC

Candidates must not write on this margin

that should be nurtured in order to bring out the blissful state and that transforms into human well being.

4) Provides a framework of guiding principles to balance personal interests over public interests that can create a larger societal good

5) Nurtures qualities like justice, harmony that can counteract the evil tendencies of discord, Sectarian views etc which can directly contributes to social cohesion.

6) Validates various ethical options according to various schools of thoughts that ultimately lead to societal good via ethical reflection that promotes moral growth and enhaces collective well being.

Thus ethics in not just a philosophical concept but a vital bedrock foundation for social cohesion and creation of a just society

UPSC

Candidates must not write on this margin

Q3) What do each of these quotation convey to you

a) "A man can give up a right, but he may not give up a duty without being guilty of grave dereliction".

Rights are the natural and fundamental demands on government elements for a person for realising his full potential by the virtue of being a human. whereas duty refers to the obligation that is been placed on a individual to act in a certain way by virtue of his position in the hierarchy of society

Giving up a duty invites grave dereliction

1) According to Kantian ethical framework these are categorical imperative that are necessarily be performed for the just order and cohesion in society abandoning which causes discord

2) (1 point) Rights are askings of a individual on authority as a part of social contract, giving up which effects individual only whereas abandoning a duty will have a larger societal impact.

Ex:- littering inside house refers to individual right whereas littering in society will invite repercussion

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

3) Duties are socially expected actions the forms and nurtures the quality of probity without which there is no incentive for the members to abide by law

trusteeship →

Ex :- Inaction and favouritism in criminal cases by police

4) In public administration every duty is mapped to a certain accountability on the individual as such abandoning duty to take action will make people guilty of grave dereliction.

Good

Nishkam karma →

Thus, we can conclude that given the nature of duties having longer impact on society and country as opposed to individual impact in case of rights we can say that we would be guilty if we abandon our duty

(Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

(b) "Love and compassion are pillars of world peace" - Dalai Lama.

Peace in the world has occupied the central stage given fragmented and war-ridden world where there are more than 300 + active kinetic battles spanning from Latin America to Africa & South east Asia.

Love and compassion are the pillars for world peace

Given the interdependence of countries and wars at any place can disrupt world order every knock and corner of world

Ex:- oil prices impact cause of Iran war

Compass

2) Love invokes the basic virtue of - basic human empathy for other's suffering as such highlights the plight of others to violent means of doing.

3) Love morally and ethically nudges people to accept and act in an accommodating which promotes social cohesion and eventually world peace

Ex:- Teressa's love for downtrodden and poor nudged many embrace and work for poor

Build inner peace

Roots of cause of violence

Collective good and social integration + Reconciliation

Psycosocial support

systematic institutionalisation N/w

Integrated value education

Ref
> Plight of others
> Reciprocity
> Vasudika Kutumbam

Democratic Discourse → Tolerance, Dialogue, Pluralism

Ecological consciousness sustainable living

Please do not write anything except the question number in this space)

UPSC

4) Love for humanity promotes the rational thinking that all humans deserved to be living on this ~~at~~ with same dignity and facilities as oneself.

Ex:- Gandhiji's invokation of "God in every human" to work for upliftment of harijans.

While love and compassion promotes world peace there are some situations where we need to seek hard means in order to bring order and lawfulness as.

too good

1) voilent protesters need to be met with hard means
2) Terrorists ~~to~~ counter strikes
3) Acting in self defence and sovereignity
4) Dealing with anti social elements and criminals.

Thus love and compassion are neccessary prerequisites for world peace that every one needs to embrace as a part of "vasudaika kutumb".

Q4) — o —

Ans: The case study show ethical issues involved ~~in here are~~ nepotism, corruption and negligence of public trust that resulted in death of innocent children.

Goodish okayish :)

Ethical issues

1) Abandonment and violation of public trust- reposed and negating fiduciary responsibility on the PWD official, ~~bidding proces~~ MLA and his aides construction company

Direct Breach of article 21

conflict of interest + personal loyalty & professional responsibility

2) Lack of transparency of bidding process that resulted in favouritism and nepotism

[Tests impartiality & Integrity]

3) "Babu-neta" nexus ~~to~~ that caused loss to public exchequer and people's trust on administration invoking collusive corruption

pressure from contractor → short term self interest

4) Deviation from expected probity and violation of code of conduct and ethics in public life and Rule of law

(8) uphold duty & accountability

5) Lack of empathy and compassion towards the plight of poor and down trodden which goes against the Gandhi's talisman".

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

6) Threatening a public administrator in his day-day activities in order to influence the investigation which goes against rule of law and ethical conduct on part of MLA.

Options available to me):-

① suppress and yield to the influences of MLA. & give report in his favour

Merits:-

» Family can be saved from any trouble and trauma

» private relationship with my friend can be upheld and nurtured

Demerits (» financial gain)

» loss of public trust and violating probity

» violating accountability and code of conduct and civil services rules of 1964

» perpetuating notion of collusive institutional corruption

(» Injustice to victims)

② Escalating matter to report undue influences and obstacles being created

Merits:-

» Informing higher official promotes independent inquiry

» Reduces local pressure

» personal safety ensured

» Establishes trail of information

(Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

for the longer public interest & trust
> Reinforced by institutional mechanism

* Demerits

(Bureaucratic delays)
> can be seen as avoiding responsibility
> Buckling to political pressure and lack of courage
> Abandoning ~~x~~ missing on the chance to nurture personal virtue of courage and leading by an example

(3) Dealing with the matter firmly and ~~&~~ reporting it to government

Merits

(1) Establishes honesty, integrity and objectivity & nurtures administration

(Constitutional & professional ethics)
> Leading by example
> Reposes and reinforces public trust on administration
> Upholds rule of law and accountability on the part of public functionaries

Demerits:-
> strained personal relations
> personal & family safety
> slow promotion and professional growth in career

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

I would choose the last option as it is enhances and upholds

① Kantian principle of universal duties to be doing as a part of ethical conduct ↔ compromising would lead to systematic failure

2) upholds constitutional values of rule of law, due process of law as well as article 21 of constitution ✓

3) Nurtures and establishes the Gandhian principle of working for poor the embedded in our social fabric and upholds talisman of Gandhi ✓

4) It nurtures the utilitarian principles of maximum utilisation/pleasure to maximum number of people in society

5) upholds and nurtures principles Like compassion, empathy, honesty, integrity etc in public administration.

6) Reposes public trust and confidence on government

Thus, one should invoke the duty of thyself according to the ethical framework as elucidated in Bagarad Gita as "Nishkama Karma". ↔ constitutional vision of justice, accountability, fortitude to stand against challenging circumstances!

(25) — srinivasan question —

a) The course of action I would take recourse to

1) Explaining the larger public health tragedy the said route would with all the social and legal implication.

2) violation of Article 21 → Uninformed consent

2) Invoking the moral and ethical principles of Indian ethos as well as code of conduct and ethics of medical profession to pushback on said route

3) Appealing to moral conscience of scientists involved and try to invoke universal values of love, compassion and empathy that are to be shown on every human being

4) If none of the routes are taking then taking recusal from the position and whistle blowing to the public as the larger societal good it is having is no more than personal professional ethics

5) suggests other means as in — collabrating with competitors and seeking expertise from government medical fraternity etc

6) Escalating matter to medical Regulators

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

(b) Options available to me and their implications

① Taking the route suggested ~~by it~~ is ~~su~~ by the team

Merits

Reputation & profits
- Faster drug development
- Financially rewarding
- potentially saving many from death

Demerits

loss of credibility, poor misconduct, legal liability
- patient/human safety at stake
- voilating professional ethics and morals
- Large public health tragedy
- Irreversible and long term impact on human health

these are same stuff

② Escalating matter to regulatory authorities and seeking approvals

Merits
- potential avoidance of personal profits trumping public good
- Balances speed and safety
- Reputation and public confidence in the company
- Ethically and morally satisfying

Demerits
- undermines standard ~~medical~~ scientifically safe route
- Red tapism and added burden of co-ordination
- Potential change of rejection and public scandal

3) Involving stakeholders and collaborating with competitors

Merits

> Speedy and accelerated drug discovery
> potential saving of human life
> "public good" ethics over personal gains

Demerits:-

> potential conflict in approaches towards drug development
> Time delay to take everyone into confidence
> Extra burden to make everyone understand the clinical setup and procedure

4) Adhering and upholding standard bioethical frameworks and protocols.

Merits:-

> Safety of public health can be ensured
> public trust and reputation of the company and researchers involved
> Scientific integrity and international acceptibility
-> long term trust and efficacy of the drug/vaccine being developed

Demerits

> Delay in drug/vaccine development
> Loss of profit and human lives in the meantime
> Losing credibility and public relations of company over competitor

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

(c) Data ethics and drug ethics can save humanity at large

> They ensure trust and transparency for the public thus helping them make informed choices

> protects patient safety and dignity by upholding their right to know, prior consent and right to privacy

> Avoids large scale public health tragedy by accounting for many voids in drug development via these ethical framework [Non-maleficence]

> Nurtures and promotes scientific temper as enshrined fundamental duties of our duties

> They promotes fairness and social justice which forms the bedrock of a just and inclusive society/civilisation.

Thus abandoning moral and ethical framework in times of crunch would create a more unjust, unsafe and unfair society as ~~would be~~ did suggested by Gandhi in his talisman to the nation

(Please do not write anything except the question number in this space)

UPSC

UPSC

Candidates must not write on this margin

2) Dissuading Meenakshi and ~~not~~ asking her to abandon the opportunity to stay with him

Merits :-

> Upholds and reinforces his childhood dream and the duty of being IAS

> personal satisfaction and excelling at work and good work-life balance

> Starting a family and making his mother happy

> Emotional ~~well~~ well being can be checked out for

Demerits

> Hurting his spouse and potential discord

> letting go of potential luxury lifestyle and lucrative career of spouse

> Missing out on benefits of being in metropolitan city over remoter North East area.

Repent & remorse from Meenakshi patriarchial expectations

Both are one & same matrimonial discord

3) letting Meenakshi relocate and take on the opportunity whilst working out ways to bridge the gaps between them

Merits

> satisfies his spouse desires and choices

> Fulfilling and satisfying ~~this~~ childhood dream of being an IAS

Middle ground

(Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

> potential professional work excellence due to resolution of marital disputes

Demerits

> potential opposition from his mother
> Inaccessible emotional and physical intimacy
> safety and security of his spouse due to pressures and influences of public life

(b) I would suggest to go with option (a) choice 3 as it would be doing minimal irreversible damage to them and it upholds libertain choices of each individuals.

Suggestion to Meenakshi

1) Respecting his and his mother desire to have a family
2) Her career planning in a phased manner to avoid discord
3) opportunities near his work location (or) possibility of remote work

TO sundareswan

1) Respecting the career choices of his wife and lucrative offers.
2) convincing his mother to allow her to relocate and right to have identity
3) seperation between personal & professional life

Please do not write anything except the question number in this space)

UPSC

Candidates must not write on this margin

(c) qualities to have

① Mutual respect and trust about their choices and decisions

2) Inclusiveness and patience to bear some inconviniences for the long term benefits of both individuals

3) sense of devotion, empathy and ~~com~~ love towards each other in order to ~~understand~~ ~~each~~ amicably resolve conflicts

4) ~~Fo~~ clear work life balance and ~~the~~ creating space to spend time with the family and nurture them

In situations like these one should heed to the Golden mean suggested by Aristotle in order to achieve Eudamonia (Absolute happiness)
